# 2015

Our lifestyle is built on passion, creativity and experience. Using our signature ironic and unexpected approach to design, our collection reflects every aspect of the Diesel philosophy. Rough materials, contrasting shapes and textural treatments are part of our heritage — all of it nestled in a brave denim spirit.

As we grow we add new pieces to our catalogue, expanding both the range and applications. This year, we are introducing wooden flooring, the first material collection from Diesel Living. It's a direct expression of our belief in unique treatments and graphic layering.

We are also taking our initial steps into the built environment with our first outdoor furniture collection, and we're going big with outsized lighting. The table top universe expands, literally aiming for the stars, yet always rooted in the warm soul of the Diesel Social Kitchen.

As always, we'd like to thank our partners: Foscari, Moroso, Scavolini, Seletti, and our newest collaborator, Berti. A big family under the same roof: Diesel Living.
